

Hello,

My name is Dr. Oren Nahum, and I currently serve as the Head of the Department of Economics and Logistics, as well as the vice dean of the Faculty of Economics at Ashkelon Academic College.

I wanted to share with you an initiative that I am currently promoting, together with professor Jacek Zak from Poznań University of Technology, to edit an academic book in memory of Yuval Hadas, and I would appreciate your assistance.

Professor Yuval Hadas was one of my main supervisors during my Master's and Doctorate studies at Bar-Ilan University. After completing my studies, I collaborated with Yuval on several publications, as well as on projects and conferences, where we addressed various problems in the fields of logistics and transportation. I value our joint work, which contributed greatly to my understanding and advancement in the field.

The book is intended to be an academic monograph that will address topics close to the core research of Yuval, under a proposed general title: Current Trends in Modeling, Management, and Decision Making/Aiding for Transportation and Logistics.

We are reaching out to researchers who were professional colleagues of Yuval, worked with him, or researched fields adjacent to his, and are asking them to consider contributing a chapter to the book (about 20 pages long, as part of a book that will include approximately 10-12 chapters).

I kindly ask for your assistance in sharing this request with any researchers who might find it relevant. At this stage, we are looking for expressions of interest and tentative titles or subjects for the chapter, as we work on developing the table of contents. Additionally, we would be delighted if you would consider participating as well.

Anyone interested in participating can contact me via email at oren.e.nahum@gmail.com.

Thank you very much in advance for your help and support.

Dr. Oren Nahum
Head of the Department of Economics and Logistics
Associate Dean of the Faculty of Economics
Ashkelon Academic College
